

Head lice treatment

It's in everyone's interest

Step 1

You can get special anti lice shampoo and a fine-toothed metal nit comb at the GCA. Comb the hair with a fine-toothed metal nit comb for 14 consecutive days.

Step 2

Wet the hair.

Step 3

Comb out the tangles with a regular comb or brush.

Step 4

Bend head forward.

Step 5

Comb the hair with a fine-toothed metal comb. Comb from the scalp toward the ends of the hair. Take care to comb all the hair.

Step 6

While combing, periodically wipe the comb on a tissue and check for lice.

Step 7

Remove stubborn nits with your nails.

Step 8

Clean all combs well after use.
